To Whom It May Concern:

For the past 3 years I have had the privilege of training Kenzie over the summers. We have focused on strength, power, speed, core strength, hand eye coordination, and foot speed.

Kenzie has a tremendous amount of natural athletic ability and over the last 3 years she has refined her physical skills and abilities a tremendous amount. Above all, Kenzie has the intangibles that you cannot teach. Kenzie is disciplined, dedicated, and has an amazing work ethic. In addition, she is a natural leader, leading both by example and through her encouraging team spirit.

I have had the opportunity to help many athletes train for a competitive advantage. Kenzie is one of those rare young athletes who will be successful at whatever she does in life. She is a winner.

Sincerely,

Keith Kettering
