To Whom It May Concern:

I am pleased to recommend one of my athletes, Kenzie Stanley, who is interested in your program. I have known Kenzie for 4 years as an athlete in my high school volleyball program. Kenzie is a smart and calculating volleyball player who has an uncanny ability to make things happen. She possesses a superb all-around game and displays great composure and confidence playing in the backcourt. Stanley is a fearless competitor who brings quickness and power to the court. She has a tremendous work ethic on the volleyball court, in the weight room, and on the track.

In addition, Kenzie has amazing hand-eye coordination and reaction time. She also demonstrates tremendous agility and explosiveness in her defense. Kenzie also possesses a threatening serve, which she can place anywhere on the court. She is an athlete that constantly challenges herself and continues to improve her range and consistency, as well as her ability to read attackers' options in different situations. She has good ball control and a natural feel for defense. Kenzie strengthens the entire team's serve reception patterns because of her ability to get the first ball to target.

Not only is Kenzie a strong volleyball player, she is also a first-class person. She truly has a heart to serve others. She is a kind soul and natural leader that has the strength of character to deal with adversity.

Therefore, her volleyball skills linked with her strength of character allows me to recommend Kenzie to your attention in a positive manner. She will certainly be an asset to your program, as she has been to our high school. I have complete confidence in her continued athletic success and pursuit for excellence.

Sincerely,

Kim Fuller
